

Must-haves for the home and garden :

Get creative at Go Arty

Go Arty is an art studio and gallery that has been operating for six years in Maroochydore.

Apart from being an art gallery, it also stocks a wide variety of innovative homeware goods, styles properties and hosts a variety of fun and flexible workshops.

The workshops are perfect for corporate team building and hen's nights with life drawing classes also available.

It is open 9am-5pm Monday to Saturday with extended hours on Wednesday night until 8pm and Sunday by appointment.

7 Norval Court, Maroochydore

All your pool needs at Billabong Pool Service

Billabong Pool Service has been servicing the Sunshine Coast for over 30 years from two stores located in Maroochydore and Noosaville.

It offers maintenance services to residential, commercial and council pools and specialises in repairs to all pool equipment.

It stocks a full range of chemicals, accessories and parts for any swimming pool or spa and a huge variety of old and current equipment to keep your pool working correctly this summer.

Billabong Pool Service has recently been inundated with queries about the new pool fencing laws and a huge demand for energy efficient equipment which it can assist you with.

It is open 8am-4.30pm Monday to Friday and 8am-12pm Saturday.

Sustain our future

Don't miss out on government rebates and high feed in tariffs, get into solar now!

"The massive cut by the NSW Government in its feed in tariff from 60 cents to 20 cents without any warning is reason enough for home owners to take advantage of investing in a solar power system," sustainability consultant Patrick Morrissey said.

"You will receive up to \$7500 point of sale discount towards your solar power system from the federal governments REC rebate program and will have your system paid off in around 5 years," he said.

The key is to purchase quality, backed solar power systems.

You want to know the brand you're buying, that it has good company history in the manufacture of its products and also in the support of its warranties.

Expand your home without renovating

There is currently a great demand for home additions and renovations as the cost of moving is huge.

However, these options have major disadvantages, such as the disruption to life during a renovation and the major costs associated with this.

SmartSpace Studios can meet this demand and allows growing families to expand without the need to renovate or move.

Its studios are pre-fabricated off-site as true flat-packed kits with a unique construction method that allows assembly in a matter of days and can be erected by the 'do it yourself' person.

SmartSpace Studios offer an environmentally friendly and Australian made product by sourcing local materials, utilising plantation timbers and using energy efficient materials.
